HEALTH DEPARTMENT,
COUNCIL OFFICES,
RYTON.

July 1969.

*To the Chairman and Members of the
Ryton Urban District Council.*

Mr. Chairman, Lady and Gentlemen,

I have the honour to present the Annual Report of the Medical Officer of Health for the year 1968.

The population figures show a natural increase of 46, with an estimated population increase of 210.

The birth rate and total number of births show a decrease compared with 1967, the rate this year being lower than for the County and the Country as a whole. There was a very slight increase in the number of deaths with a corresponding increase in the death rate which remains higher than for the County and for England and Wales, both of which have also increased. The infant mortality rate has once again fallen, remaining lower than for the County or for the Country, whose rates have also fallen. Again, no deaths arose from pregnancy or other maternal causes.

Again, cardio-vascular disease accounted for the greatest number of deaths, totalling 91 compared with 104 in 1967; 29 people died as a result of malignant disease compared with 36 in the previous year.

As anticipated, the total number of notifiable diseases decreased, 153 being notified as compared with 245 in 1967, due largely to a decrease of 104 in the number of cases of measles. It is to be anticipated that, in future years, following measles immunisation programmes, the incidence of measles will show a very considerable decrease with a corresponding drop in the number notified. One new case of tuberculosis was notified and 5 cases were categorised as recovered leaving a total on the Register at the end of the year of 63 compared with 67 at the end of 1967. Tables 'A' to 'E' on pages 27 and 28 give fuller details. No cases of diphtheria, poliomyelitis, smallpox, typhoid or paratyphoid have occurred during the past fifteen years with the exception of one case of poliomyelitis in 1961.

As detailed in Section III of this Report, immunisation programmes continued to be pursued vigorously, with prophylaxis against diphtheria, whooping cough, tetanus, poliomyelitis, smallpox and tuberculosis and newly introduced immunisation against measles. The same Section contains details of the operations in the District of the Blood Donor Panel and the Mobile X-ray Unit.

Health Education has been continued through the medium of Health Visitors and other nursing personnel; and by the distribution by the Health Department of posters and pamphlets, particularly in relation to the supply of posters to food premises and to food handlers, who are now much more conscious of their responsibilities. The standard of food premises has been shown, by inspections, to be satisfactory and no particular problems arose during the year. Some details of County Health Education work are given in the appropriate section of the Report.

The good work of the County Council in the provision of residential accommodation under the National Assistance Act continued, the 3 hostels in the No. 1 Health Area being used to capacity.

Once again I would record, with appreciation, the enthusiastic and practical support this Council has given to all welfare activities; also the untiring and unselfish efforts of the Women's Royal Voluntary Service and other voluntary bodies. Thanks are due to the Stella South Power Station canteen for continuing to supply the meals necessary for the Meals on Wheels Service. The number of residents supplied twice per week through the Meals on Wheels Service remained at 24, there being no justification for further expansion.

The Chiropody Service, started in December 1964, was continued throughout 1968, 1,872 treatments being given, the number on the Register at the end of 1968 being 523. Details are given on page 18.

The Old People's Welfare Committee remained as active as ever and some details of the work carried out by its voluntary members are shown on page 22. A further Luncheon Club was opened at Crawcrook whilst those at the Church Army Home and at Greenside continued to be very popular.

No action at Family Case Conferences was required in respect of Ryton residents. Family Case Conferences and Local Co-ordinating Committee meetings were held at regular intervals.

As in previous years, the purity of water supplies has received careful supervision. Regular sampling continued to be carried out by the supplying Water Undertakings and the Health Department and showed the supplies to be pure and wholesome.

The Council's original slum clearance programme being almost completed, action under the Housing Act 1957 was limited to individually unfit properties, of which 4 were closed and 13 demolished during the year.

Response from landlords to the offer of improvement grants continued. Of the 63 applications approved, 6 related to tenanted houses. The active co-operation of landlords is still necessary if the decay which is liable to occur in the older terrace-type houses is to be effectively arrested.

The condition of food premises has remained satisfactory and no particular problems in connection with food supplies arose.

The continuing development of housing and industrial sites within the District imposed further burdens on the refuse collection and disposal services which, nevertheless, were consistently maintained.

General inspections of premises, registered in accordance with the Offices, Shops and Railway Premises Act, 1963, were conducted and, as mentioned in the Report, matters requiring attention were generally of a minor nature.

No action has been taken by the Council to formulate a Smoke Control programme, but the measurement of air pollution by smoke and sulphur dioxide continued.

Progress in sanitary and health measures was good. I would thank members of the Health Committee and the Council for their co-operation and understanding; this has helped greatly in my own task and made the Department's efforts the more rewarding. Again, the willing co-operation, when required, of the staff of other Departments of the Council was greatly appreciated.

Health Department staff have continued their high standard of work and my thanks are due to all members of the Department for the good work carried out.

The Area Health Clerk Mrs. Martin, has carried out her duties to the community in her usual efficient manner, her relationship with the public in connection with Personal Health Services having been excellent. I am indebted to her for the collection and compilation of the detailed material in this Report relating to such Services and her assistance has been much appreciated.

My thanks go to all voluntary bodies and Organisations outside of Local Government who have done so much for the community and have collaborated so willingly in supplying me with information regarding their activities.

I am, Lady and Gentlemen,

Your obedient Servant,

JOHN A. DRYDEN,

Medical Officer of Health.

I. SOCIAL CONDITIONS AND PHYSICAL FEATURES

The Ryton Urban District is situated in the north-west extremity of the County and is bounded on the north by the River Tyne, on the south and east by tributaries known as local burns, the Blaydon, Barlow and Coal Burns, which separate it from the Blaydon Urban District, on the west by the Stanley Burn which forms the boundary between Ryton Urban District and the County of Northumberland.

The Ryton Urban District is divided into four wards, namely, Crookhill, Ryton, Crawcrook and Ryton Woodside. The Ryton, Crookhill and Crawcrook wards, although much lower than Greenside (600 ft.) and the country to the south, stand well above the level of the Tyne, which is about a mile to the north of Crawcrook and half a mile to the north at Ryton. The District has excellent natural drainage. The only low parts of the District are the two areas near to the river, one at Clara Vale and the other at Ryton Haughs, where there are two rows of houses near Newburn Bridge.

The greater part of the District is agricultural. There are a few sand and gravel quarries at Greenside and also at Crawcrook, where there is one brickyard.

The soil is sand and clay.

II. STATISTICS

General

Acreage: 5,145.

Number of inhabited houses:

Council 1,694 Other 3,630 Total 5,324.

Number of Other Premises: 328.

Rateable Value: £446,079.

Sum represented by a penny rate: £1,795 1s. 2d.

Vital

Population: 1931—14,204

1951—13,779

1968—14,910

Density of persons per house: 2·80.

Births: Comparability Factor—1·04.

III. GENERAL PROVISIONS OF THE HEALTH SERVICES

NATIONAL HEALTH SERVICE ACT, 1946

Hospital and Specialist Services Provisions

(1) Hospital Services

Hospital facilities for the District are provided by the Newcastle Regional Hospital Board through the Hexham, North-West Durham and Gateshead Hospital Management Committees.

(a) General

The Hexham General Hospital receives the majority of medical and surgical cases from the District. Some cases are also referred to and treated at the Royal Victoria Infirmary and the Newcastle General Hospital, Newcastle, as well as the Queen Elizabeth Hospital, Gateshead. In-patient treatment can be given at the Bensham General Hospital, Gateshead, and in-patient and out-patient treatment for suitable cases is also obtainable at the Dunston Hill Hospital. Lee Hill Hospital, Lanchester, has a bed capacity of 300 and caters for patients who are chronically sick, orthopaedic or geriatric in category. It also provides, under the National Assistance Act, Part III Accommodation for patients.

(b) Midwifery and Gynaecology

The great majority of these types of cases which require hospital treatment are sent to the Hexham General Hospital.

In-patient maternity treatment is also available at the Princess Mary Maternity Hospital, Newcastle, the Bensham General and the Queen Elizabeth Hospitals, Gateshead, and the Richard Murray Hospital, Shotley Bridge. Out-patient maternity treatment is also available at the Gateshead Children's Hospital.

Gynaecological treatment can be received also at the Princess Mary Maternity Hospital, Newcastle, the Bensham General Hospital, Gateshead, and the Dunston Hill Hospital, and at the Richard Murray Hospital, Shotley Bridge.

(c) Infectious Diseases

(i) *Tuberculosis*

Provision is made for the hospital treatment of tuberculous patients in sanatoria throughout the counties of Durham and Northumberland. Normans Riding Infectious Diseases Hospital, Winlaton, and Woolley Hospital, near Hexham, are used as sanatoria for both male and female patients. There are Chest Clinics attached to the Whickham and District War Memorial Cottage Hospital and also to the Hexham General Hospital where Chest Physicians attend and hold regular clinical sessions. Early diagnosis of such sufferers, and their admission to hospital promptly thereafter, has now been achieved resulting in a much improved prospect of recovery and complete cure.

(ii) *Venereal Diseases*

Specialist treatment is available for these complaints at the Venereal Diseases Clinic, Newcastle General Hospital, where every effort is made to maintain secrecy and avoid attendance becoming generally known. General Practitioners are able to refer patients to the Clinic for necessary investigation and treatment.

(iii) *Smallpox*

Provision is made at Langley Park Isolation Hospital for the isolation and treatment of cases of smallpox which, should such occur in the District, would be admitted thereto promptly.

(iv) *Other Infectious Diseases*

Cases of other infectious diseases requiring isolation are treated either at the Sheriff Hill Infectious Diseases Hospital, Gateshead. Children can also be admitted to the Walkergate Hospital, Newcastle.

(d) **Mental Health**

The Lee Hill Hospital, Lanchester, provides 44 beds for the accommodation of the mentally sick.

Cases of acute or severe mental illness are normally admitted to St. Nicholas Hospital, Newcastle. Less severe cases can also be received there for care and treatment.

(e) **Convalescent Home**

The establishment, situate in Ryton Urban District and formerly known as the Castle Hill Convalescent Home, is now styled the Country Branch Annexe of the Royal Victoria Infirmary. It is no longer strictly a convalescent home and does not admit patients directly but only for pre or post Royal Victoria Infirmary treatment. There are 98 beds, 53 for women patients and the remainder for men.

(2) **Laboratory Services**

The Public Health Laboratory Service for the District operates from the Public Health Laboratory, Pathological Institute, Newcastle General Hospital. By arrangement with the Durham County Council, all specimens for bacteriological examination are sent there by general practitioners, patients and Health Departments of the Local Authorities, and investigated and reported upon free of charge.

(3) **Blood Transfusion Service**

The Regional Blood Transfusion Service has its Headquarters in the Newcastle General Hospital. It provides all necessary service for this District. It has a Donor Panel Department which organises and maintains Blood Donor Panels in each locality. In this District, during 1968, sessions were held as under. The figures show the strength of the panel on the dates listed and the number of donations which were received on those dates.

<i>Name of Panel</i>	<i>Sessions Centre</i>	<i>Date of Sessions</i>	<i>Strength of Panel</i>	<i>Attendance</i>
Ryton (Central)	Lecture Hall, Ryton ...	15th January	196	98
	Methodist Church ...	5th August	196	114
Ryton (West)	Emma Memorial Hall ...	8th May	178	111
		14th October	178	112

(4) **Mass Miniature Radiography**

The Mass Radiography Unit which serves this District is Unit 1A, which is based on the Newcastle General Hospital. A Mobile Unit visits Districts at times throughout the year and holds public sessions at industrial establishments. The statistics for this District are given below.

<i>Year 1968</i>	<i>Number X-rayed</i>	<i>Number referred to Chest Clinic</i>
Industry	178	6
Public	249	11
Total	427	17

One industrial establishment was visited, i.e. Stella South Power Station.

It is expected that the Mass Radiography Unit will spend a week during 1969 in No. 1 Health Area (Blaydon, Ryton and Whickham Urban Districts) holding public sessions. It is possible that industrial establishments will also be visited.

Local Authority Provision

(1) Local Health Authority

The Local Health Authority for the Urban District is the Durham County Council. It is responsible for the following:

Personal Health Services

- (a) Health Centres
- (b) Maternity and Child Welfare
- (c) Midwifery
- (d) Health Visiting
- (e) Home Nursing
- (f) Vaccination and Immunisation
- (g) Ambulances
- (h) Prevention of Illness; Care and After-Care of Sick Persons
- (i) Home Help Service
- (j) Mental Health
- (k) Other Community Care Services
- (l) Health Education.

Committees

- (a) Central Co-ordinating Committee
- (b) Local Co-ordinating Committees.

Personal Health Services

(a) Health Centres

There are, as yet, no Health Centres within the meaning of the Act in operation in the District.

(b) Maternity and Child Welfare

Clinics, where mothers or children may attend for the treatment of minor ailments of school children, for dental and for sunray treatment, and for maternity and child welfare services, are provided by the Education and Health Departments of the Durham County Council at various Centres throughout the District. Welfare foods are also distributed at these Centres. Sessions are held at centres in the District, at which treatment is provided and welfare foods are supplied, as listed below.

	<i>Address of Centre</i>		<i>Sessions</i>
Ryton	Grange Road	Maternity and Child Welfare Clinic	Mondays and Wednesdays weekly and Thursday mornings.
		Dental Clinic	Mondays, Tuesday mornings Wednesdays and Thursdays weekly.
		Distribution of Welfare Foods	Mondays weekly, Wednesday and Thursday mornings.
Greenside	Community Centre	Distribution of Welfare Foods	Alternate Tuesday afternoons.

Assistant Medical Officers attend certain sessions at Centres, information regarding which can be obtained at the appropriate Centre.

On the stated days, the Maternity and Child Welfare Clinics are open from 9.30 a.m. to 12 noon and from 1.30 to 4 p.m.; and the Centres for the distribution of Welfare Foods from 10 a.m. to 12 noon and 2 to 4 p.m.

(c) Midwifery

An expectant mother can have the services of any doctor who undertakes maternity work as part of the General Practitioner service organised by the Durham Executive Council. Ante-natal and post-natal care are available at Local Health Authority Clinics. A domiciliary midwifery service is also provided. The names, addresses and telephone numbers of the District Midwives are given below.

<i>Ward</i>		<i>Name</i>	<i>Address</i>	<i>Tel. No.</i>
Ryton		Mrs. M. J. Johns	37 Tyne Gardens, Crookhill	Ryton 2712
Crawcrook Greenside	} ...	Mrs. I. Hall	"Zion", Sunnygill, Greenside	Ryton 2167

39 births in the District were notified by District Midwives during the year.

(d) Health Visiting

Health Visitors attend persons in their homes to give advice to aged or ill persons, to advise expectant and nursing mothers on the care of young children, and to stress the measures necessary to prevent the spread of infection. The names and addresses—and telephone numbers as available—of the Health Visitors for the District and the number and types of domiciliary visits carried out in the District are given below:

<i>Ward</i>		<i>Name</i>	<i>Address</i>	<i>Tel. No.</i>
Ryton		Miss U. Elliott	35 Barlow Lane, Winlaton, Blaydon	Blaydon 3204
Addison Greenside Hedgefield Woodside	} ...	Mrs. J. Moore	3 Delhi View, Woodside, Ryton	

DOMICILIARY VISITS:

Maternity and Child Welfare	...	...	...	1,557
Tuberculosis...	...	...	...	22
Mentally Sub-normal	...	...	...	23
School Home Visits	...	...	...	10
General Health	...	...	...	248
Aged People...	...	...	...	166
Total				<u>2,026</u>

(e) Home Nursing

A Home Nursing Service is provided as the responsibility of the Local Health Authority. Any requests for this service should be made to the Superintendent of Home Nursing at County Hall, Durham (Tel. No. Durham 4411); or to one of the District Nurses whose names, addresses and telephone numbers are listed below.

<i>Ward</i>		<i>Name</i>	<i>Address</i>	<i>Tel. No.</i>
Crawcrook		Mrs. J. M. Feely	3 School Houses, Greenside	Ryton 3104
Greenside		Mrs. M. J. Gray	West House, Greenside	Ryton 2332
Ryton		Mrs. K. Waggott	6 Runhead Estate, Ryton	Ryton 2246

7,688 visits were made by the District Nurses during the year.

(f) Vaccination and Immunisation

Immunisation against diphtheria, whooping cough and tetanus may be obtained, free of charge, on application to General Medical Practitioners or at Maternity and Child Welfare Centres.

Immunisation against poliomyelitis is available free of charge, for all unprotected persons under forty years of age and not less than six months old on the date of application, for all expectant mothers and for certain other specified persons, on application to General Medical Practitioners, to the County Health Department in Durham, to the Assistant County Medical Officer for the Area or at Maternity and Child Welfare Centres.

Yearly schemes are arranged by the Assistant County Medical Officer for the immunisation at school of school children against diphtheria, tetanus and poliomyelitis.

Vaccination against smallpox may be obtained free of charge, on application to any General Medical Practitioner who has agreed to give service within the National Health Service General Practitioner Service; and, for children, also at Maternity and Child Welfare Centres.

B.C.G. vaccination against tuberculosis may be carried out, in appropriate circumstances, by the Chest Physician at the Chest Clinic at Whickham. The vaccination with B.C.G. of all non-immune school children over eleven years of age is carried out yearly by the Assistant County Medical Officer for the Area.

Vaccination against measles for susceptible children under the age of 15 years can be obtained on request from General Medical Practitioners and, for children under 5 years, also at Maternity and Child Welfare Centres. Vaccination has also been provided this year at school for children between the ages of 5 and 15 years by Medical Officers in a programme arranged by the Assistant County Medical Officer for the Area.

Statistics of immunisations and vaccinations carried out in the District are given in Part IV of this Report.

(g) Ambulance Service

The Durham County Council Health Department controls and provides the ambulance facilities for the Administrative County.

All requests for an ambulance should be made to the Message Receiving Centre at the Ambulance Headquarters Control, Framwellgate Moor, Durham (Tel. No. Durham 4488) which is responsible for such service to the No. 1 Health Area. The Centre is open for message reception for 24 hours a day.

A General Service Sub-Depot at Winlaton deals, on instruction from Durham, with routine work of the service from 8 a.m. to 8 p.m. Mondays to Fridays, and from 8 a.m. to 4 p.m. on Saturdays.

Details of the work carried out in respect of No. 1 Health Area are given below:

<i>Stretcher Cases</i>	<i>Sitting Cases</i>	<i>Journeys</i>	<i>Miles</i>
3,255	27,538	6,330	180,913

(h) Prevention of Illness; Care and After-Care of Sick Persons

Nursing equipment for sick persons is provided, by Durham County Council, on request through General Medical Practitioners, District Nurses or Hospital Almoners. Invalid chairs are also available; and extra nourishment or bedding can be supplied to patients suffering from tuberculosis. A charge is normally made for these services but, in certain circumstances, the charge may be reduced or waived altogether.

The under-listed items of equipment can be so supplied

Adult Cots	Chairs (Push)	Fracture Boards
Air Rings	Chairs (Junior Push)	Junior Spinal Carriages
Bed Cages	Chairs (Rim-driven)	Leg Rests
Bed Packs	Commodore	Lifting Poles
Bedpans	Dunlopillo Cushions	Matresses (Sorbo)
Bedrests	Eneuresis Sets	Rubber Sheeting
Bedsteads (Iron)		Urinals

Equipment was received by 155 residents of the District during 1968.

Limited accommodation is available in convalescent homes provided by voluntary agencies and by the County Council; information regarding this can be obtained from the County Health Department. Domiciliary visits are made to patients at home by Health Visitors and District Nurses.

Chiropody Service

As the Local Health Authority for the District, the County Council finances its Chiropody Service. Treatment is carried out by fully qualified chiropodists in the employ of the County Council. All residents of pensionable age are eligible for this service should they require it.

The service is administered, and clerical work in connection therewith is carried out, by the Area Health Office, whilst the executive control and details are in the charge of the chiropodist, who has ancillary help from members of the Women's Royal Voluntary Service.

Chiropody sessions were started in 1964, the first clinic opened being at the Ryton Maternity and Child Welfare Centre. All clinics are operating actively.

Details of the chiropody clinics in use during the year are given below:

<i>Centre</i>	<i>Date of Opening</i>	<i>Number on Register</i>	<i>Number of Sessions per month</i>	<i>Average attendance per session</i>
Ryton ...	18/12/64	227	8	9/10
Crookhill ...	14/11/66	66	2	9
Greenside ...	3/3/67	87	2	9
Crawcrook ...	12/6/67	143	4	10

Cervical Cytology

Throughout the County, sessions are arranged as the demand justifies. One session was held at Blaydon Maternity and Child Welfare Clinic during August for those who had requested such.

(i) Home Help Services

Domestic help is provided for households where such help is needed because of the presence of any person who is an expectant mother, lying-in, ill, aged or a child not over school age. Requests for the services of a Home Help can be made

to the Assistant Organiser for the District, Mrs. Colson, 13 Ravensworth Road, Dunston. Anyone wishing to contact her can do so at the Maternity and Child Welfare Centre, Axwell Park, Blaydon, every Friday morning between 9 and 11 a.m. (Tel. No. Blaydon 3291).

Details of work undertaken by the Home Help Service in No. 1 Health Area during the year are given below:

Number of cases at 1/1/68	...	...	...	702
New cases served during the year	...	...	...	298
Total number of cases served during the year	...	...	...	1,000
Cases terminated during the year	...	...	...	278
Cases served at 31/12/68	...	...	...	722
Number of Home Helps employed at 31/12/68	...	...	...	422
Visits made by Assistant Organisers during year	...	...	...	5,770

(f) Mental Health

Under the Mental Health Act, 1959, the Local Health Authority is responsible for domiciliary supervision, care and after-care, of the mentally sick and the educationally subnormal.

An Adult Residential Training Centre for the Educationally Subnormal of the County is situated at Lanehester. Residents live-in from Monday to Friday of each week, returning home at the week-end.

For non-adults, a similar but non-residential Junior Training Centre is established at Consett. There is also, at Gateshead, a Day Centre for the Educationally Subnormal which can be attended by residents from Whickham, Dunston and Swalwell. There are two such Centres, the Junior Training Centre for boys and girls under sixteen years, and the Senior Training Centre for older boys.

Additionally, some educationally subnormal children from No. 1 Health Area continue to attend daily the Training Centre at the Prudhoe and Monkton Hospital, Prudhoe.

Statistics are given below of the number of residents from this District being cared for or supervised by County Council staff as a responsibility under this Act.

<i>Number of Persons registered as Mentally Subnormal</i>	<i>Number of Persons under Supervision</i>	<i>Number of Persons in Hospitals</i>
54	39	15

(k) Other Community Care Services

The names, addresses, telephone numbers and scope of duties, of the various Field Officers for these Services, are set out below.

Home Teacher of the Blind

<i>Name and Address</i>	<i>Tel. No.</i>	<i>Nature of Duties</i>
Miss J. Coulthard Child Welfare Centre, Shibdon Road, Blaydon.	Blaydon 3291	Domiciliary visiting of blind and partially sighted persons.

Mental Welfare Officers

<i>Name and Address</i>	<i>Tel. No.</i>	<i>Nature of Duties</i>
Mr. J. H. Jobe (Senr.), 48 The Briary, Shotley Bridge.	Office: Stanley 2481 Home: Consett 2097	Removal of mentally ill patients to hospital under Mental Health Act, 1959. Supervision of subnormal persons, mainly adult males After care of mentally ill persons.
Mr. N. Hamilton, East House, Greenside, Ryton.	Office: Blaydon 3291 Home: Ryton 3124	— do. —
Miss H. E. Marshall Health Department, County Hall, Durham.	Durham 4411 (Ext. 375)	Responsible for supervision of certain sub-normal and psychiatric cases and distribution of Section 57 (Exclusion from School) letters.

(The Mental Welfare Officers may be contacted at their own homes between 9—10 a.m. and 4—5 p.m.; if not available, a message may be left at Durham 4411, Ext. 372).

Social Workers

<i>Name and Address</i>	<i>Tel. No.</i>	<i>Nature of Duties</i>
Mr. A. R. Tapster (Senr.), Hexham Villa, Egton Terrace, Birtley.	Birtley 2880 and 2889	Casework in respect of handicapped persons, some problem families and evictions.
Mr. A. Robertson, Child Welfare Centre, Shibdon Road, Blaydon.	Blaydon 3291	do.

Area Children's Officer

<i>Name and Address</i>	<i>Tel. No.</i>
Miss M. Bloomfield, 33 Station Road, Stanley.	Stanley 2792 or 2496

Child Care Officers

To be contacted at Stanley 2792 :

Mr. S. Adair	Mr. S. Horswill
Mrs. F. Gordon	Mr. R. Knowles
Miss J. Hogarth	Mr. K. Willis

(1) Health Education

Under the Public Health Act, 1936, Local Health and Local Sanitary Authorities have power to arrange programmes of health education within their area of jurisdiction. Additionally, Local Health Authorities are further authorised in this respect in various sections of the National Health Service Act, 1946.

The County Council Health Education Section has expanded the visual aid service and made available to County staff working in Districts all forms of machinery such as projectors and screens, also posters, pamphlets, films, slides, tape-recordings, cine-cassettes, small exhibitions, photographs and flannelgraphs, if required. The Midwives and Health Visitors in this District used this material in their ante-natal work and at relaxation classes.

Additionally, each month material is published on a particular subject and issued to all the Child Welfare Centres and to others on request. During 1968, such publications included the following subjects:

Smoking and Bronchitis	Poisons out of Doors
Safety for Children	Food Hygiene
Nutrition	Home, Safe Home
Immunisation	Nightdress Safety
Foot Health	Drugs/Medicine Safety
Mental Health	Christmas Safety

As District Health Education activities, Ministry and Central Council for Health Education posters and pamphlets have been distributed widely to appropriate organisations for display on the premises and distribution to staff. This has particularly applied to food hygiene and anti-smoking publications.

Committees

(a) Central Co-ordinating Committee

Meetings of this Committee are held at County Hall when required.

(b) Local Co-ordinating Committee

The Local Co-ordinating Committee for No. 1 Health Area, on which the under-listed voluntary organisations are represented, meet as frequently as required.

British Red Cross Society
Local Medical Committee
District Old People's Welfare Committees (3)
Round Table
St. John Ambulance Brigade
Women's Royal Voluntary Service for Civil Defence.

It is felt that these meetings serve a very useful purpose in making known to the different organisations the scope of work undertaken by each, thereby determining how such voluntary work could most usefully cover the needs of the Area.

(2) Local Sanitary Authority

The Local Sanitary Authority for the Urban District is the District Council, and the work carried out by the District Health Department is discussed in detail later in this Report.

(a) Meals on Wheels

A Meals on Wheels Service, sponsored and financed by this Council with part financial assistance from the County Council and run by the Ryton Branch of the Women's Royal Voluntary Service, was commenced four years ago and, throughout this period, catered for meals for some 24 residents to whom hot meals were delivered twice per week.

A register is kept of persons who would wish to accept this service if offered but, at the date of this Report, it is considered that all really needy cases are catered for.

The co-operation and invaluable work of the Women's Royal Voluntary Service in running this service and the supply of the necessary meals from Stella South Power Station Canteen have been and are greatly appreciated.

(b) Old People's Welfare Committee

This Committee, which was formed in 1965, continued to meet at quarterly intervals. Day to day decisions are taken by sub-committees which have been formed, meetings of which are called as required.

The Luncheon Club run at The Grove, Ryton, continued to be very popular and regularly attended. Captain Aylott, who is in charge of the Hostel and also Chairman of the Old People's Welfare Committee, and his staff, have been most energetic and enthusiastic. The Luncheon Club at Greenside and the Luncheon Club at Crawcrook, which was opened on the 24th January, have both been well supported. Details of each Luncheon Club are given below.

<i>Club</i>	<i>Date of Opening</i>	<i>Number on Register</i>	<i>Number of Sessions per week</i>	<i>Average attendance per Session</i>
The Grove	3/3/66	30	1	28
Greenside	11/4/67	30	1	29
Crawcrook	24/1/68	30	1	28

The Central Kitchen, opened on 4th April, 1967, continues to be operated by members of the Women's Royal Voluntary Service, who cook the meals for the Crawcrook and Greenside Luncheon Clubs.

Appreciation should be expressed to all the voluntary workers connected with these efforts and I would particularly like to record my praise of Mrs. Douglass of the Women's Royal Voluntary Service whose efforts have been most untiring in many directions.

Executive Council Provision

The Durham Executive Council is responsible for the provision of the General Medical and Dental, the Pharmaceutical and the Supplementary Ophthalmic, Services for the District. Medical practices in the District are largely partnerships of two or more doctors.

CHILDREN AND YOUNG PERSONS ACT, 1963

Family Case Conferences

Two meetings of the above Committee were held during 1968 under the chairmanship of your Medical Officer of Health. Towards the end of the year, re-organisation took place and cases for discussion in respect of No. 1 Health Area residents will be dealt with during 1969 at meetings of the North West (2) Area Family Case Conference and will be confined to cases in No. 1 Health Area.

No action was necessary during the year in respect of residents of Ryton Urban District.

EDUCATION ACT, 1944

Local Authority

The Durham County Council is the Local Education Authority for the Urban District.

School Health Services

The School Health Services are provided by the County Council. These are the responsibility of the County Medical Officer who, as Principal School Medical Officer, carries out the requirements of the Act through his Deputy and staff. The services provide for systematic medical inspections, by routine attendances at schools of an Assistant Medical Officer, and for the medical and dental treatment of school children. Special School Clinics have been built—often a Maternity and Child Welfare Centre functions in the same building—where Assistant Medical and Dental Officers attend on a seasonal basis.

When a child is found at medical examination to require specialist examination or treatment, arrangements are made, with the agreement of the parents and the family doctor, for the child to attend the appropriate hospital or clinic. Facilities are provided at school clinics for the treatment of minor ailments, defective vision, dental and speech defects. Special schools are provided for handicapped children who are educationally subnormal or delicate. When necessary, arrangements are made for other handicapped children to be placed in special schools maintained by other Authorities.

HOUSING ACTS, 1924-1957

Aged Persons Accommodation

Work was completed during the year in connection with the Greenfields Estate of bungalows and flats, including a communal centre and warden's accommodation.

NATIONAL ASSISTANCE ACTS, 1948-51

Section 21—Provision of Residential Accommodation

Hostel accommodation is provided by the County in No. 1 Health Area at:

Winton House, Parkhead Estate, Winlaton.	Tel. No. Blaydon 2900
“The Hermitage”, Front Street, Whickham.	Tel. No. Whickham 887372
Derwentdale House, Ryton.	Tel. No. Ryton 2009

Residents of the District requiring such type of accommodation can be admitted also to any of the County Hostels throughout Durham County. Information regarding these can be obtained from the Assistant County Medical Officer.

At the end of the year, 20 residents of the District, 9 males and 11 females, were accommodated in Residential Part III Accommodation.

Section 47—Removal to Suitable Premises of Persons in Need of Care and Attention

Although the Council are authorised under these Acts, in certain cases, to apply for compulsory powers to remove persons in need of care and attention in most cases people are anxious to remain in their own homes. It has not been found necessary during this year to take such action. While there is increasing evidence of persons who are aged, infirm, living alone and in need of some degree of assistance, with the co-operation of the Home Help Service and the Welfare Department of the Local Health Authority and of the National Assistance Board, it has been possible to effect improvement in the welfare of these persons in their homes or by admission to Part III Accommodation on a voluntary basis. As a result, recourse to compulsory powers is rarely needed.

Section 50—Burial and Cremation of the Dead

No action was necessary under this part of the Act.

IV. PREVALENCE OF AND CONTROL OVER INFECTIOUS AND OTHER DISEASES

PREVALENCE

The number of cases of infectious diseases notified during the year was 153 as compared with 245 in 1967. This includes 6 cases of Infective Hepatitis/ Infective Jaundice.*

Table comparing Numbers of Notifications during the years 1967/68.

Scarlet Fever

Four cases of scarlet fever were notified.

The policy of home treatment of this disease has continued where satisfactory isolation arrangements were possible. When hospital isolation is considered necessary, this has always been possible to arrange by admission to Sheriff Hill Infectious Diseases Hospital.

Diphtheria

No cases of diphtheria have been notified since 1953.

Poliomyelitis

No cases of poliomyelitis have been notified since 1961.

Smallpox

No cases of smallpox have been notified since 1927.

Dysentery

Three cases of dysentery were notified during 1968. These were all of the mild Sonne type and a close check was kept on all cases and contacts.

Typhoid Fever

No cases of typhoid fever have been notified since 1950.

Paratyphoid Fever

No cases of paratyphoid fever have been notified since 1953.

Food Poisoning

One case of salmonella typhimurium was notified. Routine investigations were carried out to determine the source of infection but without success.

Tuberculosis

One case of respiratory tuberculosis was notified. One case was transferred into the District. Detailed figures are shown in Tables A to E.

It was not necessary to take any action under Public Health (Prevention of Tuberculosis) Regulations 1925, with regard to the employment in dairies of persons suffering from tuberculosis; nor was action necessary under Section 172 of the Public Health Act, 1936.

CONTROL

Below are given statistics and information of the measures which have been taken for the protection against Diphtheria, Whooping Cough, Tetanus, Measles, Poliomyelitis, Smallpox and Tuberculosis, of residents in the District.

Diphtheria, Whooping Cough and Tetanus

Protection can be given separately or jointly against each of these infections. Details of the work undertaken through health services in this District are given below.

Tuberculosis

Heaf Testing (School Health Service)

In Infants' Schools, during 1968, Health Visitors carried out routine Heaf testing of new entrants. The results were read the following week by Assistant Medical Officers and, where positive, appropriate action was taken.

				<i>Number Heaf Tested</i>	<i>Number Heaf Positive</i>

V. SANITARY CIRCUMSTANCES

1. Water Supply

The supply of water for the District is provided by the Newcastle and Gateshead Water Co. except for 14 houses in the Blaydon Burn area, which are supplied by the Durham County Water Board, and the 3 houses in isolated parts of the District, which depend on wells and springs.

The mains water is of good quality and the supply is continuous and plentiful.

Samples taken from the wells were found on analysis to be of satisfactory bacteriological standard and the supplies from these sources proved adequate during the year.

The following are details of the houses and population supplied.

Number supplied from public water mains direct		
to houses	5,321	14,903
Number supplied from wells and springs ...	3	7
	5,324	14,910

(a) Durham County Water Board

14 premises in this District are supplied by the Board.

The work carried out in the Urban District has been in connection with the usual extension of mains required for housing development. Works on the new Honey Hill Treatment Works have been completed and are now supplying water of the very highest quality to the District.

(b) Newcastle and Gateshead Water Company

5,160 premises in this District are supplied by the Company.

A total of 1,162 works control samples from the Whittle Dene and Henderson Filters were examined in the Company's Laboratory during the calendar year ended 31st December, 1968, and, of these, 99.74% were of "excellent" quality. In addition to the foregoing, 235 samples of water from the Warkworth Filter Plant were examined and all were of "excellent" quality.

10 samples taken at random in this District were all "excellent".

During the year, the following new mains were laid in the District:

342 linear yards of 3 in. diameter pipes.

114 linear yards of 4 in. diameter pipes.

2. Rivers and Streams

No formal action under this heading was required during the year. Pollution of Westburn, Crawcrook, was considerably decreased, by the replacement of two small sewage works, by a pumping station discharging into the Council sewers.

3. Closet Accommodation

With the exception of some agricultural properties and 9 dwellinghouses in unsewered parts of the District, all houses are equipped with water closets. The elimination of all privies and ash closets and their conversion to a watercarriage system is a matter worthy of every possible effort. Apart from the health aspect of the continued use of insanitary accommodation, there is an increasing reluctance on the part of labour to empty and cleanse such closets.

Efforts continued to be made to eliminate this insanitary type of closet and the acceptance of standard grants was encouraged.

4. Collection and Disposal of Refuse

The Council is directly responsible for the whole of refuse collection and disposal in the District.

The majority of the houses have been provided with dustbins which were emptied twice weekly where necessary; the remainder were emptied once weekly. The service was consistently maintained throughout the year during which 301,265 receptacles were emptied, the estimated tonnage disposed of being 5,000.

Three collection vehicles of the following types were used:

Dual Tip	...	...	...	1963	18 cubic yard capacity
Karrier Bantam	...	...	...	1967	12 cubic yard capacity
Dual Tip	...	...	...	1968	18 cubic yard capacity

Refuse was disposed of at the following tipping sites:

1. Crawcrook Quarry.
2. Burnhills Quarry.

These quarries provided adequate tipping facilities remote from housing development. It is considered, however, that the tipping of crude refuse is no longer socially acceptable, particularly where an adequate supply of suitable covering material is not available. With the increasing quantity of combustible material among refuse, the risk of tip fires has increased and nuisance cannot be entirely avoided. The Council therefore, agreed to participate in the research project initiated by the Tyneside/Wearside Refuse Disposal Committee. It is the Council's view that tipping should be replaced by incineration or pulverisation as soon as it is practicable.

5. Drainage and Sewerage

Practically all sewerage continued to be discharged, untreated, by three main and two subsidiary outfalls into the River Tyne. Exceptionally, the properties at Coalburns and Holburn Dene Estate discharge to local treatment plants. In practice, it is considered that these small type sewage disposal plants, which serve a useful purpose for isolated development, are not satisfactory in the centre of urban development. They seldom produce an effluent of really good quality and can give rise to nuisance, particularly from odour. So far as future development is concerned, a comprehensive sewerage system for the District would be preferable to the installation of a number of scattered small works.

6. Atmospheric Pollution

Measurement of smoke and sulphur dioxide concentrations continued during the year. A summary of the results for the completed months is given below:

		<i>Smoke</i> (Microgrammes/cubic metre)		<i>Sulphur Dioxide</i> (Microgrammes/cubic metre)	
		<i>Average</i>	<i>Highest Daily</i>	<i>Average</i>	<i>Highest Daily</i>
January	...	152	520	82	171

March	...	129	539	74	206
April	...	87	235	N*	97
May	...	66	109	60	104
June	...	43	142	68	105
July	...	43	94	53	86
August	...	36	77	52	86
September	...	65	163	53	91
October	...	114	270	63	118
November	...	133	501	46	142
December	...	170	291	88	196

N* *Insufficient number of results.*

7. Noise Abatement

Under the Noise Abatement Act, 1960, which came into force on 27th November, of that year, noise or vibration which amounts to a nuisance at Common Law becomes a statutory nuisance to be dealt with in accordance with the procedure of the Public Health Act, 1936. Local Authorities are empowered to serve, where applicable, abatement notices upon the person or persons in default. The Act does not apply to aircraft or to noise caused by statutory undertakings in the performance of their powers. Special provision is made in the case of nuisance arising from a trade or business and in the case of loudspeakers used in the streets.

Two complaints were dealt with informally during the year.

8. Moveable Dwellings and Caravan Sites

One licence, relating to the stationing of a single caravan, was in force during the year in respect of one site in the District.

9. Offensive Trades

No establishments, defined as “offensive trades” under Section 107 of the Public Health Act, 1936, operated in the District.

10. Shops Act, 1950.

The main provisions of this Act were administered by the County Council except for requirements relating to temperature, ventilation and sanitary accommodation.

Shop premises were inspected during the year and it was found that conditions in these respects were satisfactory.

Two instances arose where it was found that the shop temperature was not maintained at a level sufficient to ensure comfortable conditions for employees and, in each case, the matter was rectified by an informal approach to the proprietors.

11. Factories

Thirty factories remain registered, categorised as follows:

Quilt Manufacture	...	...	...	1
Building Trade	...	...	...	1
Garages	...	...	...	5
Television Repairs	...	...	...	3
Slaughterhouses	...	...	...	2
Bakeries	...	...	...	2
Joineries	...	...	...	3
Brick and Tile Manufacture	...	...	...	1
Boot Repairs	...	...	...	1
Electrical	...	...	...	3
Adhesives	...	...	...	1
Pit Props	...	...	...	1
Light Engineering	...	...	...	5
Stationery Manufacture	...	...	...	1

All factories were visited regularly and conditions found to be generally satisfactory. In 6 instances, it was necessary to make requirements concerning matters for which this Council is administratively responsible.

12. Common Lodging Houses

No common lodging houses exist in the District.

13. Licensed Premises and Clubs

These are listed in the Register of Food Premises and were inspected regularly under the Food Hygiene Regulations, 1960.

14. Prevention of Damage by Pests Act, 1949

(a) Rodent Control

Regular treatment of the Council's sewers was carried out, in accordance with the recommendations of the Ministry of Agriculture, Fisheries and Food and has undoubtedly played a major part in controlling rat infestation in the District. All complaints received were investigated and advice given on suitable methods of treatment. Treatment of business premises was carried out on a re-chargeable basis and, in other cases, baits and poisons were laid free of charge. The policy of the Council is to encourage notification of rat infestations and to co-operate to the fullest possible extent to secure the destruction of rats and mice. In many cases, it is found that rat infestation is primarily due to unsatisfactory environmental conditions on the site; for example, the keeping of animals in insanitary conditions, the haphazard storage of feeding stuffs, and the insanitary state of garden, garden sheds, etc. Where infestation occurs, every opportunity is taken to eradicate the unsatisfactory conditions which are so often a feature of the locality affected.

A summary of the work carried out is given below:

Number of properties in District	...	...	...	...	...	5,652
Number of properties inspected following notification	...	...	...	...	...	164
Number infested with:						
(a) Rats	...	...	...	...	...	128
(b) Mice	...	...	...	...	...	36
Number of properties inspected for reasons other than notification						521
Number infested with:						
(a) Rats	...	...	...	...	...	9
(b) Mice	...	...	...	...	...	Nil

In the case of business premises, necessary treatment was given on a re-chargeable basis. A standard charge of 7/6d. per hour, to cover labour and materials, was made.

Number of properties treated:

	<i>Agricultural Premises</i>	<i>Non-Agricultural Premises</i>
Rats	15	122
Mice	2	34

(b) Insect Control

Insect infestation does not present a serious problem in the District. Such complaints as have been received relate usually to the more common household insects which are not regarded as of particular public health significance. Infestations by ants, cockroaches and silverfish have been dealt with but the number of complaints has tended to diminish, possibly due to the availability, by public sale, of effective fumigants and powders. The higher standards of house building also tend to reduce infestations of this nature which have been reported more often from the older, terrace-type properties.

15. Offices, Shops and Railway Premises Act, 1963

This Act is intended to make provision for securing the health, safety and welfare of persons employed in such premises, and came into force in stages commencing on 18th February, 1964.

Those premises, to which the Act applies and in respect of which the Council is the enforcing authority, were visited during the year and advice given to employers as to their responsibilities and obligations under the Act.

A number of contraventions of the Act were found in respect of cleanliness, failure to provide a hot water supply and washing facilities, failure to provide a thermometer and failure to provide first aid materials. In each case, conditions were remedied without recourse to formal action.

16. Cinemas

There are no cinemas which are used as such within the District.

17. **Swimming Pool**

The open air swimming pool provided by the Council at Ferndene Park is filled from the main supply and treatment is provided by filtration, chlorination and aeration. Regular samples of the water were taken during the season and submitted for bacteriological examination. The result in every case showed the samples of water to be of the highest attainable bacteriological standard.

18. **Disinfection of Houses**

Disinfectants are supplied by the Council free of charge when infectious disease occurs. In practice, it is found that such supply has been required only in the case of persons suffering from tuberculosis.

19. **Mortuary**

There is one mortuary situated at Ryton Cemetery.

20. **Schools**

The condition of the schools throughout the District was satisfactory.

21. **Recreation Grounds**

The recreation parks, at Ferndene, Ryton, and Garden House, Crawcrook, add considerably to the amenities of the District. Gardens, pavilions, bowling greens, tennis courts, putting greens, children's playgrounds, a paddling pool and an open air swimming pool have been provided. These amenities make a notable contribution to the general health of the community.

VI. INSPECTION AND SUPERVISION OF FOOD

1. Milk and Milk Products

The District is part of a specified area which only milk of special designation may be sold.

Dairies

Two dairies are registered under the Milk and Dairies (General) Regulations, 1959.

Dairy Farms

The supervision of milk production at the dairy farms in the District is undertaken by the Ministry of Agriculture, Fisheries and Food.

Distributors

The County Council are responsible for the licensing, and undertake milk sampling, in respect of milk at special designation.

Milk Sampling

The following table shows the result of milk sampling undertaken by the County Council.

<i>Class of Milk</i>	<i>Number Taken</i>	<i>Appropriate Test</i>	<i>Number Passed</i>	<i>Number Failed</i>
Pasturised ...	15	{ Methylene Blue	15	—
		{ Phosphatase	15	—
Sterilised ...	11	{ Turbidity	11	—
Untreated ...	55	{ Methylene Blue	49	6
		{ Biological (Brucella abortus)	10	—

Disease from Milk

No action was necessary under Regulation 20 of the Milk and Dairies Regulations, 1949.

Ice Cream

Two premises continued to be registered for the manufacture and sale of ice cream, in one of which the cold mix process was used. The other premises has been fitted with modern plant to meet the requirements of the Ice Cream (Heat Treatment) Regulations, 1947-1952. The ice cream was manufactured under very satisfactory conditions.

2. Meat and Meat Products

Meat

There are two private slaughterhouses within the District, both situated at Greenside. Both premises were modernised in accordance with the Slaughterhouse Construction Regulations and provide a good standard of accommodation.

188 beast, 780 sheep and 33 pigs were slaughtered during the year.

No cases of cysticercosis bovis or tuberculosis were encountered during the year.

Under the Slaughter of Animals Act, 1958, 7 slaughterman's licences were renewed for a period of twelve months.

The following table indicates the number of carcasses and offal inspected and condemned in whole or in part.

Carcasses and Offal Inspected and Condemned in Whole or in Part

	Cattle excluding Cows	Cows	Calves	Sheep	Pigs
Number killed (if known)	188	—	—	780	33
Number inspected	188	—	—	780	33
All diseases except Tuberculosis and Cysticercosis					
Whole carcasses condemned... ..	—	—	—	—	—
Carcasses of which some part or organ was condemned	13	—	—	21	—
Percentage of the number inspected affected with disease other than Tuberculosis and Cysticercosis ...	6.91 %	—	—	2.70 %	—
Tuberculosis Only					
Whole carcasses condemned... ..	—	—	—	—	—
Carcasses of which some part or organ was condemned	—	—	—	—	—
Percentage of the number inspected affected with Tuberculosis ...	—	—	—	—	—
Cysticercosis Only					
Carcasses of which some part or organ was condemned	—	—	—	—	—
Carcasses submitted to treatment by refrigeration	—	—	—	—	—
Generalised and totally condemned	—	—	—	—	—

Meat Products

Forty-two lbs. of canned meat, found to be unsound, were voluntarily surrendered and disposed of so as to prevent its use for human consumption.

3. Other Foods

The following other food products were found to be unsound, voluntarily surrendered and disposed of so as to prevent their use for human consumption.

<i>Canned Foods</i>	<i>Weight</i>
Fruit and Vegetables	39 lbs.
Other Foods	27 lbs.

Two articles of food, which were alleged by the purchasers to be not of the nature or substance or quality expected at the time of purchase, were brought to the notice of the Health Department; as and when necessary, liaison with the Food and Drugs Department of the Durham County Council is established to determine appropriate action required. Below is given a brief summary of the measures taken respecting the articles referred to.

<i>Article of Food</i>	<i>Complaint</i>	<i>Remarks</i>
1 Bread loaf	Contained black deposit	Complaint not confirmed on analysis
1 Bottle of Milk	Contained garden slug	No legal action taken in view of possible origins of contamination.

4. Food Premises

The following table summaries details of food premises subject to the Food Hygiene (General) Regulations, 1960, grouped in categories of trade carried on in them. It should be noted that, in many cases, other types of commodities are sold besides the principal trade:

<i>Type of Premises</i>	<i>No.</i>	<i>No. of Premises fitted to comply with Reg. 16</i>	<i>No. of Premises to which Reg. 19 applies</i>	<i>No. of Premises fitted to comply with Reg. 19</i>
Bakers	2	2	2	2
Butchers	14	14	14	14
Catering	3	3	3	3
Confectioners (Cakes) ...	5	5	5	5
Confectioners (Sweet) ...	11	11	11	11
Fish Shops:				
Fried Fish	6	6	6	6
Wet Fish	2	2	2	2
Greengrocers	9	9	9	9
Grocers and General Dealers	40	40	40	40
Licensed Premises	11	11	11	11

Inspection of food premises, involving 480 visits and revisits, were made under the Food Hygiene (General) Regulations, 1960 and any infringements found were forthwith brought to the notice of the persons concerned verbally or by the service of written notices.

The majority of traders, recognising their responsibilities and obligations to the general public, complied with the notices and a general improvement in food hygiene practices has been observed.

5. Food Sampling

The Durham County Council is the Food and Drugs Authority for the District and enforces the sampling provisions of the Food and Drugs Act, 1955. The Chief Inspector of the Weights and Measures Department has kindly furnished the following information.

Inspection of food premises, involving 480 visits and revisits were made.

List of Samples taken in the Ryton Urban District
Under the Food and Drugs Act, 1955, during the year ended
31st December, 1968

	14	Milk
	2	Tea

„	1	Breakfast Marmalade
„	1	Malt Vinegar
„	1	Sultanas
„	1	Ground Ginger

VII. HOUSING

All complaints regarding unsatisfactory housing conditions and structural defects were investigated and appropriate action taken where necessary.

During the year, the Council completed the building of 15 houses.

The majority of the existing houses are of modern construction and most of them well-built; the new streets are well planned and there is practically no crowding of houses in confined yards and courts. In addition, the District enjoys the natural advantages of being situated on rising ground and in being surrounded by open country.

One Clearance Area, comprising 4 dwellings, was submitted to and confirmed by the Ministry of Housing and Local Government during the year, whilst a further 17 houses were considered by the Council as individually unfit.

Four houses were closed, 13 were demolished and 3 families were rehoused from sub-standard properties.

Building Progress

Since 1st January, 1920, the following building has taken place:

Houses built by Council	...	...	...	1,692
Houses built by private enterprise	...	...	...	1,441
Total	...			3,133

Since 1945:

Houses built by Council	...	...	...	1,051
Houses built by private enterprise	...	...	...	796
Total	...			1,847

Number of Housing Applications from Aged Persons	...	41
Number of Housing Applications from Single Persons	...	98

Applications for housing accommodation, if not renewed at the expiration of twelve months and every subsequent twelve months, are removed from the list of applicants.

Overcrowding

One case of overcrowding was revealed during the year. It was agreed to offer suitable accommodation when it became available.

Housing Applications during 1968:

From sub-tenants	...	...	32
From tenants	...	...	30
From aged persons	...	...	22
From single persons	...	...	31
From outside district	...	...	30

House Purchase and Housing Act, 1959.

During the year, 63 applications for standard grants were received, and 63 approved. Of the applications approved, 57 were from owner-occupiers and 6 related to tenanted houses. Since the inception of the scheme in June 1959, there has been a total of 551 grants paid, amounting in all to the sum of £52,989 5s. 10d.

Housing (Financial Provisions) Act, 1958

The Council decided to extend improvement grants and to give consideration to applications for Discretionary Grants, also to make loans in appropriate cases to cover the owner's share of the cost. Twenty such applications were approved.

Fifteen such grants were paid during the year, amounting to the sum of £4,388 16s. 3d.

APPENDIX

Factories Act, 1961

Annual Report of the Medical Officer of Health in respect of the year 1968 for the Urban District of Ryton in the County of Durham.

Prescribed Particulars on the Administration of the Factories Act, 1961.

Part I of the Act

1. INSPECTIONS for purposes of provisions as to health (including inspections made by Public Health Inspector).
